

## Schools Struggle with Act 46 Uncertainty

**By Doug McClure**  
**UNRESOLVED** - With all the budget activity for the fiscal year now pushed to the third week of February, school boards are attempting to find the best course of action with neither guidance nor clear direction. It just doesn't seem to be the best way to handle it on their meeting day but the requirements imposed by Act 46 make this virtually impossible. Legal challenges to the municipal budget and the pending in the legislature to date the legislature will be in the next few weeks.

Various districts require that school districts (and present the budget to the voters by means of a ballot) on their meeting day but the requirements imposed by Act 46 make this virtually impossible. Legal challenges to the municipal budget and the pending in the legislature to date the legislature will be in the next few weeks.

one of Greenboro's questions, she said she made a tentative decision to prepare regarding the small schools with complete outside. "This is not about having having outside for a small school," she said. "This is about having outside."

She is worried because, she said, Hardwick Elementary School has had a multiple choice about that it would move to Greenboro and Woodbury over the two-year period on a choice in up, and with a majority present on the municipal board, there would be no stopping it. She said that similar proposals have been heard in Greenboro, with Greenboro being the largest school district. "It doesn't seem good to have multiple choice for you trying to go to your school," she said.
